

20 Years Ago

Over 20 years ago I was part of the original Eagles Nest in Kelowna, B.C. Canada, as prophesied for the Northwest Region. But not long after its total destruction, I ended up in the Vancouver Region hired on as a General Manager for a Major Publishing Company, and the owner of that publishing company was also the Official Canadian Eagle Biologist for the complete North West Coast, covering Alaska to California. I was now in charge of publishing all his Eagle books, along with all his other publications. Thinking I was on the road to recovery, I realized it was another assignment, a journey that would give clarity to an Eagles Nest that was meant to be, — as in accordance to Heavenly Fathers design.

Eagle Rehabilitation Center

Included on the publishing property was an Eagle Rehabilitation Center for injured Eagles. I was there for 3.5 years learning about Eagles and their habitation. I learned about the raising up of Eaglets. I learned what makes a good Eagle Nest, and what makes a bad Eagle Nest. I learned why Eagles end up in rehabilitation, and what causes the totally destruction of an Eagle Nest. What Holy Spirit was showing me

during those 3.5 years was how the natural application of the Eagle Nest lines up and defines the Spiritual Eagle Nest.

Eagle Statistics

By Gods design, all the natural Eagle statistics spoke powerfully of the supernatural. Eaglets are considered fully-grown to size after 9 weeks from hatching, — 9 meaning completeness. Eaglets take their first flight 12 weeks after hatching, — 12 meaning governmental release. It takes an Eagle 5 years before it receives its white crown and white feathers, — 5 meaning Gods grace, Gods goodness, Gods favor. 5 x 5 meaning Gods Glory. The wingspan for an Eagle can get up to 8 feet, — 8 meaning new beginnings. Fully matured, Eagles can weigh up to 12 pounds, — 12 meaning power and authority. The Eagle nest is usually around 5 feet across, — 5 meaning the 5-Fold Foundational Ministry. The Eagle sees clearly up to 3 miles away, — 3 meaning the ability to see through the lens of the Father, the Son, and the Holy Spirit. Having that 3 in 1 vision. The scientific name for the Bald Eagle is " Sea Eagle " — described as " The Fish Group by the Sea ".

Gods Eagle Nest

When God births a Spiritual (Ekklesia) Eagle Nest for a gathering, — it's a Prophetic Nest that is activated for strategic purposes, specifically stationed for the releasing of Special Forces in a specific region, — War Eagles like David's chosen army. There's that general call for believers to soar like Eagles, but the call for an (Ekklesia) Eagle Nest is strategically designed to be that Prophetic Eye, that Prophetic Voice, — to be that Weaponizing Force for a region. The (Ekklesia) Eagle Nest, by heavenly design, is a little more than a Gathering Place where Eagles soar. They are similar, — but the applications widely differ.

The one gathering occupies the freedoms given to a region, the other gathering battles to create those freedoms for that region, releasing protection, provision, expansion, and an alignment that comes with a

powerful unity. This (Ekklesia) Eagle Nest is a Special Forces Military type calling, — an extension, and an expansion, of Gods Prophetic Strategies designed to clear the way for the Bride of Christ in a specific region.

An Apostolic Nest

Once the Nest is allocated, God now gathers His Prophetic Eggs for that Nest. The Eagle Egg, in the Spirit, is Heavenly Father's version of a cocoon. Born again in the Spirit, He now tucks those strategic ones in that secret place, that hidden dwelling place, as they are incubated in His presence. During the incubation process, their identity, and their prophetic destiny, starts to form into a reality. And during the hatching process, — the Eaglet is born the second time around, where its prophetic identity is defined even greater for that much needed battle preparedness as it begins to expand its territory.

The Second Birthing

As the maturing process now enters into that second birthing stage, the Eaglet now begins to break out into that very recognizable identity. Going from obscurity to clarity, — these two stages are vital when it comes to defining ones identity, and ones weaponized prophetic ministry within the 5-Fold Ministry as in accordance to an Ekklesia environment.

The first stage, is the incubation phase where the development and alignment creatively defines that predetermined identity. Again, God knew us before we were born. The second stage is the maturing phase and the releasing of a character that enables them to fly in the fullness of that prophetic identity. It's the maturing of that identity, and the coaching of the Holy Spirit, that leads to destiny, unity, and territory.

Spiritual Incubation

Spiritual Incubation, in a solid foundational environment, is an aligning time with a divine formation happening as they dwell in the shadow of the almighty. In the stillness of incubation there is growth.

There is a divine clearing of all the attachments, and the discarding of the misaligned, as everything starts to come into spiritual order. Reactive behavior is cultivating new defaults. Divine wisdom is being molded. Contamination is being removed. Strength is being generated. It's a time of healing. A time of letting go. A time of complete surrender.

Incubation is that surrendered place filled with transparency as the chains fall off. With limited movement, — God creatively moves within. A recalibration is taking place while the old scripts are being rewritten. It's a time of sacred alignment, — being reshaped for a Holy purpose. Wondering steps, and those draining battles, are being removed. It's a reset that comes with precision filled with heavenly intentions. Truth is being developed. Truth is being defined. The incubated Eaglets are being developed into their true identity. It's a time where misidentification dissolves, a time where masks are removed, where all that is false is lifted off.

Fathers and Mothers in the Spirit

The nest within that region, comes with its Spiritual Fathers and Mothers who are called to manage the Nest unto the Lord. These are trained ones coming from a grassroots level who know the landscape, the airwaves, along with a knowledge of the ruling principalities in that region.

Ones who have been trained up to navigate within that region. Walking with discernment, having righteous oversight, understanding the times and seasons, knowing what true unity actually looks like. They now create an environment that releases divine growth and divine strategies. Trained by the Holy Spirit, they release a model that is spiritually crafted to render the controlling darkness in a targeted region that God plans to inhabit.

It is these spiritual Moms and Dads that will release a covering, knowing exactly how to intercede when raising up War Eaglets for Gods plans and purposes. They understand Spiritual Warfare from an

offensive and defensive position, and they have an understanding of the 5 different ministries that God plans to unleash upon these Eaglets.

The Maturing Process

The maturing process enters a whole new level as the Eaglet starts to recognize their wings. Where the invisible now becomes visible. It's the beginning of an activation. It's a new freedom, the widening of insight that completes their new identity. A transformation that takes them into a whole new adventure. Going from captivity into activity, to experiment and fully experience their new environment.

The Spirit that raised Jesus is now raising them to greater heights. Now learning to use their wings, these Eaglets, coming out of the shell, are now expanding their identity. It's a development time that enables them to soar at those greater heights. It's also a time where their voices are being developed. Going from containment to whole new rearrangement. They now realize that they have wings, and that they have a powerful voice designed to tend to the Father's business.

The Journey Begins

As their wings are maturing, they now begin to play around with the idea of lift. When a light wind breezes across the nest, they now experiment when it comes to balancing in the wind, as they slowly come to grips on how to rest in the wind, and most importantly, — how to move with the wind. Going from being restricted, to now being released into a whole new spiritual reality with a heightened awareness.

The journey of being an Eagle now starts to have a whole new meaning. Alignment is being sharpened. The wind, the Spirit, is now adding to their identity. The rising up to a new level of freedom becomes a new reality. As they surrender to their new habitation, their new reality releases them into a powerful freedom. Transformation can now have its finished work, as they now tap into those great heights.

Part of that finished work is being equipped with amazing vision. With the ability to see beyond, they now dominate the Kingdom with offensive and defensive authority. When surrendering completely to the Holy Spirit, the atmosphere changes as they now habitate and move with Gods manifest presence, as to Gods original design and timing.

The Breath of the Lord

The breath of the Lord is now part of their identity as they now speak with a creativeness that tends to the Father's business. Proclaiming plumb line declarations, the atmosphere shifts as they see what the Father is actually doing in a specific region. Conduits for Gods purposes, having increased perception, they become the fulfillment of “Thy Kingdom come, Thy will be done, on Earth as it is in Heaven.”

Embracing the treasures of Heaven, unhindered with strategies, filled with innovation, the (Ekklesia) Eagle Nest is now released with assignments, with abundance, and with its share of Holy Spirit intelligence. Designed with intent for divine impact, it now transforms the environment with Kingdom results as it begins the restoration process.

It's these ones that will go deep into the enemies camp, rendering the heavenlies in a regional capacity, as they are used by the Holy Spirit and the angelic to set the captives free for a region and for a nation.

Eagles and Angels

The opportunities that God has for a maturing Nest now has them engaging with the Angelic on a consistent bases as the Angelic now recognize the divine alignment within them, both individually, and most importantly corporately, as the (Ekklesia) Eagle Nest now understands how the Kingdom of Heaven functions here on earth, along with having a knowledge and a wisdom of how to engage victoriously in the battlefield, — also known as the harvest field.

The plumb line message coming out from the maturing (Ekklesia) Eagle Nest is now lining up with the Messenger Angels, where the alignment creates a powerful regional force when it comes to taking care of the Fathers Business as exemplified by Jesus and His Ministry.

In Closing

As you can see there is a whole lot more to understand when it comes to walking out the spiritual habitation of an (Ekklesia) Eagle Nest for a region. The adversary, the devil, clearly understood the chess move that God was making in this Western region. He knows that when an (Ekklesia) Eagle Nest powers up to capacity, that it will render his territories as it totally changes the spiritual atmosphere.

He knows that the heart of man, totally manipulated by his design, is filled with religious constructs and intellect, and so he is able to minimize and misalign, as mans attempts become seasonal where they never go the distance. That's all part of his strategy. Man powers up, but never to the capacity where they take stolen lands back. Again that's part of his strategy. Man worships, prophecies, but it never alleviates, or accelerates them to where they need to be. Again that's part of his strategy.

And so our families never really change, our neighborhoods never really change, and our cities never really change, and spiritual authorities and ruling principalities never really change. Again that's part of his strategy that we power up, but never enough to make a difference. We crash and burn only to crash and burn once again as we blindly accept them as seasonal times while we engage with times of revival, times of worship, and times of motivational conferences. Again that's part of his strategy. We can have our times, — but the territories stay in his control.

The Western Eagles Nest

When it comes to the (Ekklesia) Eagle Nests here in Western Canada, our adversary the devil had the ability to destroy and distort Gods strategies. And what we see rising out of the ashes is nothing close to what

it should be. Why? Because the very model that Heavenly Father wanted to birth was never established, — it was completely compromised. Why? Well God has his template when it came to the (Ekklesia) Eagle Nest, but man has his mandate on what that template needs to look like. God has a divine order, but man has his divine order on what Godly order needs to look like. God has a strategy, but man has his strategies on what Godly strategies need to look like. God has his chosen leaders, but man has already ordained theirs, — and there lies the problem.

Let that all sink in for a minute, — for a region, we are no farther ahead than we were 20 years ago. We are more fragile and scattered in this region than we've ever been. So if this was a test, the question is : Will we bring ourselves into alignment as to the Fathers original intent ?

It was during the incubation period where it all went sideways for us out here in the West. Those who were called to protect the Nest, ended up with a busyness that created a misdirect. Unaware of the regional importance of the Eagle Nest, this top down ministry, divided on so many levels, released a leadership that was far removed from the Ekklesia Model that was needed for the rising Eagle Nest. With the covering removed, ambition stepped in, the false crept in, as the counterfeit slid in with its version of governance.

With the Eagle Nest locked and loaded in the present day religious matrix, it may be time to rethink what it is that we are doing when it comes to re-establishing Gods Prophetic (Ekklesia) Eagle habitation. Because what we're doing over and over again, constantly releasing conferences, looking spectacular to the untrained prophetic eye, with its distorted councils, roundtables, and with the same leadership and leadership model that trashed it the first time, — is something we need to walk away from.
